

LUCKY GERMAN IN JERSEY CITY.

Sister Dies in the Fatherland,
Leaving Him a Fortune of
Two Millions.

RAN AWAY FROM HIS HOME.

Played Hockey When Eight Years Old
And Has Not Seen His
Family Since.

New York, Sept. 11.—After an absence from his old home in Germany for nearly half a century Theodore Hamill, a book-keeper who lives in Jersey City, has been informed by a St. Louis law firm that a sister in his native land has bequeathed him nearly two million dollars. Hamill ran away from home at the age of 8 and has not seen his sister or his friends since that time. When a youth he lived an adventurous life, serving as lieutenant in Maximilian's army in Mexico.

A comrade who returned to Brunswick, Germany, told of seeing Hamill in St. Louis, where he formerly lived. This clue finally led to his discovery.

Rockmen Discontented.

Wilkesbarre, Pa., Sept. 11.—The rockmen of this region, who have called a meeting for next Sunday night, may decide to strike for 10 per cent increase in their back wages. It is said the mine workers will not attend the meeting.

Irregularities in Prison.

Philadelphia, Sept. 11.—Alleged irregularities have been discovered in the cigar department of the state penitentiary in this city, and, acting upon the suggestion of inspectors Robinson and Hart, United States internal revenue officials are investigating the business methods of the institution. Warden Daniel W. Bussinger has been granted an indefinite vacation and overseer

How long will it take the man to fill the sack if he does not stop the leak?

To attempt to neutralize the body when the stomach is diseased is like trying to fill the sack with the hole in it. When the stomach and other digestive and nutritive organs are diseased, there is a constant loss of nutrition.

Dr. Pierce's Golden Medical Discovery

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It stops the leaks by which nutrition is lost, and enables the building up of the body by the nutrition derived from food. The gain in weight proves the cure.

"Three years ago I was taken sick with what the doctor called nervousness and indigestion," writes Mrs. Warren K. Parker, of Orange Street, New York. "I gave up medicine for the trouble, but I could not eat even a little toast or oatmeal without suffering severely. In a few months I began to have diarrhoea, and in the pit of my stomach. I called the doctor again and he said I had catarrh of stomach, and he gave me medicine but it did not do any good. I lost 25 pounds in three months. I then commenced taking Dr. Pierce's medicine and soon began to feel better. I have taken six bottles of 'Golden Medical Discovery,' two of 'Purification' and six vials of Dr. Pierce's Pellets. I have gained ten pounds. Can eat everything."

Dr. Pierce's Pleasant Pellets cure constipation.

discovered by her constipation that a growth of hair was developing on the new organ. It grew thicker day by day and caused great amusement to the neighbors.

In her distress she went to the local commissary of police and stated that she wished to get a divorce from her husband, whose brutality was the original cause of the trouble to which she was exposed. She also told him that she had made the new nose a portion of a

REPAIR OUTFIT FOR THE ARMY.

Electric Car Fitted Up with Regular Repair Shop Facilities.

BLACKSMITHS AND CARPENTERS

Complete Sets of Tools and Mechanics To Handle Them—Making Practical Test.

New York, Sept. 11.—Equipped with horsehoes, saddlers' carpenters' and blacksmiths' outfits complete for use in the army, a motor car will leave this city for the war department in Washington in a few days. After inspection by the department officials it will be sent to Fort Leavenworth, Kansas, for test in actual service. It is the first car of the kind ever constructed and if it comes up to the expectations of its designers, any necessary repairs to the equipment or arms of the artillery, cavalry or infantry branches of the service can be made on the spot, or even while the forces are on the march. The car is not a model of beauty, and is not calculated to break any time records. It is simply a large box on wheels, with numerous cabinets containing all sorts of tools and appliances from the blacksmith's anvil to artillery wheels. The car, stripped of its equipment, weighs 5,500 pounds, and the equipment will bring it up to five and one-quarter tons.

WORK AT THE GOVERNMENT STATION.

The following description of the extensive experiments being carried on at the big farm in Washington, where the world's experts are employed, will be of considerable interest to our Utah farmers. Washington, Sept. 11.—If the plans for improving the city, extending the park and driveway system so as to include

Sample Sent Free by writing Botanic Blood Balm Co., Atlanta, Ga.

Sold in Salt Lake City, Utah, by Zion's Co-operative Mercantile Institution Drug Dept. Call or write. Blood Balm sent by express.

In fact, be accomplished through any other means, none of them could compare with the experiment station at Washington, where the finest experts in the world give the product their special attention. By keeping careful watch of developments in every part of the world these experts let pass no chance of experimenting in adapting the conditions of the cultivation of desirable foreign plants and in increasing the value of plants already American. Of course, much of this work is only in the stage of plans, but plans are constantly being carried into practice.

"We hope that there will come a time," said the secretary "when this country will have to import large quantities of its drugs, and be uncertain of their purity, but will be raising on its own soil the plants which supply the world with the most valuable medicines. When American farmers will see the advantage of planting blue grass, which is a natural creature of which we have no vestige of these pests in a field where it is planted, forming a fine lawn in their backyards, and growing when the best varieties of sweet corn, for a given locality, will be known to a certainty, which we shall know how to use shade and when not to use it, and so on, through endless things.

The two men in the department who are at present conducting the most extensive experiments are Mr. W. W. Tracy, assistant to the botanist, and Mr. Hartley of the division of pathology.

Mr. Tracy is experimenting upon bees, canines, catarrhs, tomatoes, cucumbers and melons with a view to ascertaining and describing standard varieties and eliminating synonymous variety names. It is stated that seedmen require an old and unfashionable variety of a plant, just to attract the attention of the public to it, and induce them to purchase it. This practice keeps variety names constantly in a muddle. Mr. Tracy's idea, among others, is to publish standard descriptions, pointing out what is what in the seed world. To accomplish this he is growing numerous varieties of plants, in order that comparisons between their appearance and qualities may be made. For example, a large area is devoted to the raising of corn, with row after row of different varieties, each marked with a number of its own. He has lettuce growing, both under a lattice shade and in the open, and is noting the difference in the resulting plant, so that the proper treatment may be recommended to the farmers of the country.

Dr. Kirkwood, Dentist, moved to 52 E. Third South St.

TEA BISCUIT AS WEIGHT.

Senator Patrick H. McCarren has, it seems, a special dislike for a certain type of inquisitive woman reformer. A woman of this cast worried him considerably at a time when his vote upon a bill concerning her sex. She haunted his favorite places, and one day advanced to his desk and began examining objects upon it.

"What's this?" she inquired, picking up a weighty brown thing which slipped out of her hand and dropped like a heavy stone to the floor.

"That," replied the senator, "Oh, that's a biscuit baked by some woman reformer who is eager to get a bill through on some kind of scientific cooking. It's the finest paper weight I ever had."

The woman departed silently and troubled him no more.—New York Times.

THE TWO PRINCIPAL FIGURES OF THE ALASKAN BOUNDARY COMMISSION.

Lord Alverstone, chief justice of England, is presiding over the deliberations of the commission to delimit the boundary line between Alaska and British North America. John W. Foster, who prepared the case for the government of the United States, was secretary of state under President Harrison. He is generally regarded as one of the greatest authorities in the world on international law. He was a member of the joint high commission which settled the Bering sea seal fisheries dispute.

Armstrong, in charge of the cigar manufacturing department, has been suspended.

The investigation covers the period from the first of the year to the first of the present month. The internal revenue officials have closed the cigar department and have impounded all of the raw and manufactured material. It is said by United States officials that so far at least \$5,000,000 have been blown counted for and those at the minimum price of \$10 per thousand indicate loss to the state's exchequer of not less than \$5,000,000.

Inspector Robinson says each department is to be investigated. "We have not found anything that militates against the personal integrity and ability of the department, but we have found abundant evidence that the old methods so long in vogue are faulty and antiquated," said the inspector.

THE VERNACULAR.

This was the conversation between the girl with the gum in her mouth and the other girl with the gum in her mouth.

"Alma hungry?"

"No my, Less go nest."

"Where?"

"Yeh. Gochers?"

"Yeh. How bout placecrossstreet?"

"Nother! tee teee. Lessground com."

Thattidoo zwell zennyware. Mighta thoughta that—first, Gocher hat."

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, putting it up against the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kaible, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."

Kodol Digests What You Eat and relieves the stomach of all nervous strain and the heart of all pressure.

Bottles only \$1.00. Size holding 2 1/2 times the trial size, which sells for 50c.
